

## Company Profile

Founded in 1965, utilizing both German technology and Chinese wisdom, Reliance is dedicated to manufacturing electric control distribution products. Covering an area of 60,000 square meters and owning assets of over 30 million USD, Reliance is committed to becoming a world-class Chinese company to provide customers with excellent products and services.

Certified by ISO9001:2015, ISO14001:2015, ISO45001:2018 and ISO/TS22163:2017, Reliance integrates R&D, manufacturing equipment, advanced technical process and a high-level laboratory, listed as UL witness lab Reliance participated in setting a number of national standards and industrial standards and got many core patents.

Reliance products include din rail terminal blocks, PCB terminal blocks, rotary (auxiliary) switches, switching power supplies, relays and HDC ETC., which are certified with UL, CE, VDE, RoHS and CCS etc. Our products were used in many major projects such as Three Gorges Dam and Beijing Olympic Birds Nest Stadium etc.

With the spirit of loyalty, dedication, innovation and high efficiency, Reliance provides you excellent products and high quality service. Our vision is to create a world-class Chinese brand and become a reliable electric expert for global customers.

## We Make Our Best Efforts For Even Every Smallest Detail

We know well that our customers require excellent quality both of the products and services, which comes from the pursuit of detail. Therefore, we always focus on the smallest details.

## Garden-style Factory

**Professional R&D Team**  
Reliance has an experienced & professional R&D team and cooperation with universities to establish a school-enterprise research base.

**Selected High-quality Raw Materials**  
Reliance adopts high-quality raw materials from world-class brands such as BASF/DuPont/Lupoyang Copper/Baosteel.

**World-class Production Equipment**  
Reliance uses advanced brands equipment like Demag from Germany, AGIE CHARMILLES from Switzerland.

**Efficient Automatic Production**  
Reliance has a number of automated assembly lines with independent intellectual property rights.

**Efficient Automatic Production**  
Reliance has a number of automated assembly lines with independent intellectual property rights.

**Standard Site Management**  
5S management in the office area and production site

**Accurate Product Traceability**  
Reliance adopts bar code tracking management for manufacturing, inspecting, stock and shipment, so that each order has complete traceability.

## Where There Is Electricity, there Is Need For Our Products

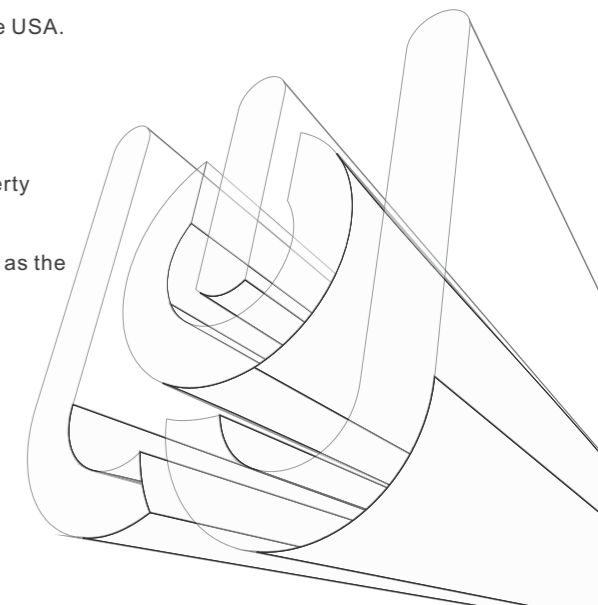

- Power Engineering (Thermal power, Hydro-power, Wind-power, Solar Energy, PTD)
- Mechanical Engineering(Lathe, Injection Machine, Spinning Machine, Crane, Elevator)
- Traffic Engineering (Rail Traffic, Marine, Highway, Airport)
- Communication Engineering (Communication Base Station, Communication Power Supply)
- Process Automation Control (Petroleum, Chemical, Metallurgy, Wastewater Dispose, Building Material)

- Power Engineering (Thermal Power, Hydropower, Wind power, Solar Energy, PTD)

- Traffic Engineering (Rail Traffic, Marine, Highway, Airport)
- Communication Engineering (Communication Base Station, Communication Power Supply)
- Process Automation Control (Petroleum, Chemical, Metallurgy, Wastewater Dispose, Building Material)

## Milestones

- 1965 Founded in South Zhonglieci Street, Chengdu.
- 1968 Jx2 and B2 series terminal blocks were listed in the provincial plan of Sichuan Mechanic Industry.
- 1969 The products were listed in state plan of the Ministry of Machine-Building Industry.
- 1979 The company was listed as one of the 19 nationally appointed terminal blocks manufacturers by the Ministry of Machine-Building Industry. The products started to be sold all over the country.
- 1981 The company was remanded as Chengdu Low Voltage Electric Factory.
- 1985 The company was recognized as the sole Technological Transformation Project of Electric Control Accessories Industry in the National "Seventh Five-year plan".
- 1994 The company cooperated with Weidmüller Interface GmbH & Co. and founded a joint venture named Chengdu Weidmüller Interface Co., Ltd.
- 2001 Renamed as Chengdu Reliance Electric Co., Ltd. and ERP was successfully put online.
- 2007 The company's first international invention patent was approved.
- 2009 Recognized as the national high-tech enterprise.
- 2011 Recognized as Sichuan Province Enterprise Technology Center.
- 2012 Listed as a UL witness laboratory.
- 2014 Become a holding subsidiary of the listed company Tianjin Benefo Tejing Electric Co., Ltd.
- 2015 Developed the first piece fully protective Terminal block in the world.
- 2016 Granted as the global supplier by GE in the USA.
- 2017 Obtained as CNAS accredited laboratory.
- 2018 Recognized as National Intellectual Property Superiority Enterprise of China.
- 2019 The protective terminal block was granted as the Sichuan major innovative product.
- 2021 National "Specialized, elaborative, characteristic" little giant.

## Our Products

## Nine Series Products

01>Cam Switches

02>Auxiliary Switches

03>Electrical Installation Accessories

04>Relays

05>Terminal Blocks

06> Heavy Duty Connectors

07>Circular Connector

08>Switching Power Supplies

09>Transmitters and Isolators

**Customized Service/ We provide you technical solution and mold making per your need.**
